### HEALTH & SAFETY NOTES FOR VISITORS

In order to comply with the latest guidelines issued by New Forest District Council Environmental Health Department, we must stress the importance of hand washing for both children and adults.

#### PLEASE WASH YOUR HANDS:

- After touching an animal
- After using the toilet
- Before eating or drinking
- Before smoking
- When leaving the farm

Adults should supervise the children in their care to ensure that their hands are washed and dried properly. Special attention should be paid to children who suck their fingers. There are several hand-washing points around the farm, as well as those within the toilet blocks. If you find that any of these do not reach the high standards which we strive for, please let us know immediately.

### GERMS HATE CLEAN HANDS!

Please note: hand gel is a useful supplement to hand hygiene, but must NOT be used as a substitute for hand-washing.

THANK YOU FOR YOUR COOPERATION IN THIS MATTER

FARMER IAN AND HIS ANIMALS COME TO YOU!

We had a brilliant day feeding the pigs and ducks, grooming the goats and holding tiny chicks.

Altogether good value for money and the kids loved it! We will be returning.

This farm is a must-visit for both young and old.

The staff are all lovely and great with children. I've been to farm attractions all over England and in my opinion this is the best, and the best value.
