EXPERIENCE ICELAND FROM A NEW PERSPECTIVE

WITH NATIONAL GEOGRAPHIC-LINDBLAD EXPEDITIONS

Driven by a deep passion for exploration and conservation, voyages with National Geographic-Lindblad Expeditions inspire a change in perspective that transforms the way you experience the world.

SMALL SHIPS THAT TAKE YOU FURTHER

The ships in the National Geographic-Lindblad Expeditions fleet bring you directly into the heart of Icelandic wilderness. Each small, nimble vessel was designed to deliver the finest in exploration, allowing the seasoned captains and crews to stay flexible, go further and ultimately deliver the most ambitious itineraries available in Iceland.

TRAVEL WITH A WORLD-CLASS TEAM

Voyages are driven by passionate expedition teams—naturalists, photographers and cultural specialists who are explorers at heart. National Geographic Experts join select departures, offering unique perspectives and special access.

TAKE GREAT PHOTOS WITH THE PROS

National Geographic photographers have spent decades travelling the globe, capturing the world's most impactful images. They join every Icelandic expedition—along with a National Geographic certified photo instructor—helping travellers hone their camera skills in captivating places.

EXPLORE YOUR WAY EVERY DAY

Itineraries feature a range of immersive activities that bring you into the pages of National Geographic magazine, from hiking volcanic craters to Zodiac cruising beneath basalt cliffs. Each expedition offers excursions for every skill level so that you can explore your way—and at your own pace—every day.

REVEALING UNDERSEA WONDERS

On most departures, an undersea specialist brings marine wonders to the surface by capturing underwater footage of the subarctic's surprisingly vibrant marine life. During nightly recaps, the specialist interprets sea creatures and geological features, offering insights integral to the story of Iceland.

EXPEDITIONS THAT GIVE BACK

Every voyage that sets sail contributes to the preservation of the planet through the Lindblad Expeditions-National Geographic Fund. Your support helps conserve coastal communities and marine habitats—and it funds explorers from the National Geographic Society who are envisioning bold changes for a sustainable future.

FAR FROM THE CROWDS

ENCOUNTER ICELANDIC WONDERS BY SHIP

The dynamic landscapes of Iceland showcase the living Earth like nowhere else. In this land of geological treasures, the brightest gems are found in hidden corners and coves, where waterfalls flow through mossy canyons, glaciers tumble from mountaintops and fjords carve paths from the sea to timeless fishing villages.

There's no better way to experience authentic Iceland—far from the well-trodden Ring Road—than on an expedition cruise to the country's remote shores. Explore with National Geographic-Lindblad Expeditions and witness a seldom seen side of this beloved country.

DISCOVER REMOTE ISLANDS AND SHORELINES

In recent decades, Iceland has become a tourism hotspot, and once-quiet areas of the island nation are now flooded with people eager to see its churning volcanoes and bubbling geysers. Most land-based travellers zero in on popular destinations like the Blue Lagoon or Thingvellir National Park—places shared en masse across social media.

An expedition cruise is your passport to the parts of the country overlooked by the tourist hordes. Exploring by sea allows you to cover more ground and reach remote corners that few will ever see. In secluded coves and rugged fjords, Zodiacs bring you into the wild without the need for existing infrastructure—and in a fraction of the time it would take for overland visitors.

LEARN FROM LOCAL EXPERTS AND LUMINARIES

Aboard small expedition ships, you'll enjoy plenty of face time with people at the top of their fields. National Geographic certified photo instructors help you capture nesting puffins and otherworldly sulfur cauldrons, and naturalists shed light on volcanism and whale migrations. Cultural specialists interpret the unique customs you'll come across, and many departures feature onboard performances from local artists who weave together music and stories, offering an in-depth look at rural Icelandic life.

BEYOND THE BLUE LAGOON

7 UNIQUE ICELANDIC EXPERIENCES

Exploring Iceland by small ship opens an entirely new realm of possibility, taking you to the far-flung, unspoiled corners of this enchanting subarctic isle. Go beyond the Blue Lagoon to glimpse Iceland's natural wonders in their wild glory and the daily rhythms of life that have remained much the same for generations.

LEARN THE HISTORY OF THE HERRING INDUSTRY

The Herring Era Museum in Siglufjörður showcases the fisheries that transformed this fjord-side town into a thriving city in the early 1900s. Witness the "herring girls" give a reenactment of fish processing, then take a taste of pickled herring.

HIKE A CRATER WHERE THE EARTH IS STILL HOT

Heimaey island has risen from the ashes of its infamous 1973 eruption. On a hike to the rim of Eldfell crater, pass pockets of steam that still rise from the earth, and see the "Pompeii of the North," where ash-preserved houses have been excavated.

WITNESS ICELAND'S REWILDING

Birch forests once covered up to 40 percent of Iceland, but the agriculture of 9th-century settlers led to deforestation. On a guided walk through young woodlands, learn how communities are reforesting their regions with native species.

WALK A CANYON STEEPED IN SAGA

According to Norse mythology, the u-shaped Ásbyrgi Canyon was formed by the hoof of Sleipnir, Odin's eight-legged horse. Other myths name Ásbyrgi as the capital of Iceland's "hidden people," the Huldufólk.

CROSS THE ARCTIC CIRCLE

The tiny isle of Grimsey is bisected by the Arctic Circle, and you can make a crossing on foot or at sea. Another island attraction is the large puffin colony. More than 80,000 breeding pairs nest here between April and August.

DELVE INTO THE WORLD OF WHALES

The Husavik Whale Museum is one of the only museums in the world dedicated entirely to whales. Exhibits cover topics ranging from whale ecology to conservation, and include artful displays of 11 massive skeletons.

GLIMPSE TRADITIONAL EIDERDOWN FARMING

Vigur island is both a seabird sanctuary and the centre of the ancient Icelandic tradition of eiderdown farming. A single family serves as the steward for the avian populations, and they walk you through the process of harvesting eiderdown.

All In

Activities and excursions are always included in the voyage price unless otherwise noted.

ICELAND WITH THE FAMILY

THE ULTIMATE EXPEDITION EXPERIENCE

Iceland is the ideal summer vacation destination—a land of geological extremes where Earth’s drama unfolds around every corner. Itineraries are crafted for people of all ages, with interactive excursions that inspire young explorers and seasoned travellers alike.

With several major airlines offering direct flights between Reykjavík and the UK, an unforgettable family adventure is just a few hours away.

Special Offer for Young Travellers

Save 50% on cabin fare for children and young adults aged 22 and under on select sailings of *Fire and Ice: An 8-Day Sailing Around Iceland* and *A Circumnavigation of Iceland*.*

*This offer is combinable on a booking with the UK exclusive 35% saving, however the child's fare will be a 50% discount from the original published fare, not after the 35% discount. The 35% discount applies to *Fire and Ice: An 8-Day Sail Around Iceland* only.

NURTURING YOUNG EXPLORERS

On Fire and Ice: An 8-Day Sail Around Iceland, A Circumnavigation of Iceland and Exploring Iceland: Fjords, Waterfalls and Wildlife, kids and teens can participate in the National Geographic Explorers-in-Training program. Led by certified field educators, young travellers will learn to explore Iceland like scientists and tell the stories of their surroundings through photographs, videos, drawings and more.

EASY ACCESS TO ARCTIC WILDERNESS

The wilds of Iceland are easier to access than ever before, with a host of nonstop flights to and from cities across the UK. Fly from London to Reykjavík in just over three hours and your family will find itself exploring an otherworldly realm of gushing geysers and iceberg-filled lagoons.

EXPLORATION FOR EVERY GENERATION

Each Icelandic voyage offers a range of activities, from leisurely photo walks along volcanic beaches to thrilling 4x4 rides through the remote highlands. However you choose to explore, you will discover fascinating places as a family and bond over the memories of your expedition for years to come.

A DAY ON EXPEDITION IN ICELAND

Discover the centuries-old hamlets of ancient seafarers, hidden forests shrouded in lore, personality-packed puffin colonies and much more.

Breakfast: Feast Your Eyes on a Fjord

Iceland's rocky coast is carved with more than 100 fjords, many of them found along the country's remote western and eastern shores. After leaving Reykjavík, you'll wake up in a new one nearly every day—and they make the perfect backdrop for a fresh breakfast of made-to-order eggs, fresh pastries and oatmeal and yogurt parfaits with all the fixings.

Morning Excursion: Witness the Earth in Action

Amid Iceland's elemental landscapes, there are a multitude of ways to interact with the living Earth. On a morning excursion, you might walk along a fjord to a thundering waterfall, Zodiac cruise around basalt cliffs studded with seabirds or climb to the rim of a volcanic crater.

Downtime: Scenery at Sea

There's plenty to see from the ship, and while you're relaxing, you may hear your expedition leader call out notable landmarks over the loudspeaker. Among them are Surtsey—one of the world's youngest islands—and the monument on Grímsey island that marks the border of the Arctic Circle. Whales are also plentiful in these parts, and your captain may stop the ship to watch a pod of orcas or humpbacks.

Lunch Is Served

Select from a lunch menu of diverse options that can be tailored to your taste and dietary preferences. Many meals start with a robust soup to ward off the Icelandic chill.

Chat With the Captain

Attend a naturalist talk in the lounge or take advantage of the ship's amenities: read up on geology in the library, test out high-tech cameras from the complimentary OM System Photo Gear Locker or visit the open Bridge to chat with the captain about Arctic navigation. Young travellers in the National Geographic Explorers-in-Training program are invited to join their certified field educator in using the ship microscopes to examine plankton gathered on the morning Zodiac cruise.

Afternoon Excursion: Local Icelandic Life

Voyages offer a rare look at the age-old customs that thrive in the country's remote rural corners. Alongside local Icelanders, delve into traditions like eiderdown processing and herring fishing. Your expedition may also feature a special cultural expert—such as a professor or politician—who joins you throughout the journey to share insights into local Icelandic life.

More to Explore: Get the Perfect Puffin Photo

Several landing sites harbor puffins,* and when you spend time at the edge of their nesting cliffs, keeping as still as possible, they get used to your presence and flutter about their business. Post up alongside your National Geographic photographer and they'll show you how to adjust your shutter speed to get the perfect picture.

Ready for Recap

Meet in the lounge over drinks and hors d'oeuvres, and settle in for the daily recap, featuring presentations and slideshows on the day's adventures and a preview of tomorrow's activities.

Dinner and a Show

Nosh on Nordic cuisine at dinner, sampling a local fish sustainably caught and perfectly prepared by your ship's chef. This evening's entertainment features a local musician hand-selected by the fleet's ethnomusicologist, Jacob Edgar, who curates unique performances that incorporate traditional elements of Icelandic culture.

*Puffins can be seen in Iceland between mid-April and mid-August.

SETTLE IN AT SEA

Each ship in the National Geographic-Lindblad Expeditions fleet is a destination in its own right, featuring superior amenities and enriching experiences to ensure that your time on board is equally rewarding as your time on shore—from exquisite culinary delights to soothing spa treatments, performances from local musicians and more.

Cheers!

Your bar tab is included on all departures aboard the expedition fleet, with a selection of premium wines and spirits available for purchase.

SAVOUR ICELANDIC FLAVORS

Sampling local cuisine is a highlight of any voyage, and the culinary team takes great care to bring Icelandic flavors to the meals you enjoy on board. Executive chefs design unique menus that prominently feature sustainably sourced seafood and produce from the places you visit, as well as wine pairings and guided tastings to enhance your experience. Special onshore activities, like an in-depth exploration of Iceland's once-thriving herring fisheries, invite guests to forge even deeper connections with local culinary traditions.

THE SINGULAR SOUNDS OF ICELAND

Ethnomusicologist Jacob Edgar curates musical experiences aboard the fleet so that your time at sea is accompanied by songs that are reminiscent of your ports of call. For select departures, Jacob has also curated an exceptional lineup of Icelandic singers and songwriters, whose music offers a window into the region's cultural identity and brings the rich traditions of local communities to life.

WELLNESS AT SEA

Greet the day with a sunrise yoga session or unwind in the spa with a massage, serenaded by the sound of soothing waves. Dedicated wellness spaces—including treatment rooms, saunas, fitness centres and more—encourage you to tap into the natural rhythms of your surroundings. Treatments are tailored to your individual needs, and each of the fleet's fully accredited wellness specialists is also a licensed massage therapist.
