Why Silversea

SILVERSEA BRINGS THE WORLD CLOSER

For nearly twenty years, Silversea has revolutionized Expedition travel, bringing adventurers closer to the world's furthest frontiers. From the Arctic to the Galápagos and beyond, Silversea Expeditions guide meaningful exploration across all seven continents. Cutting-edge ships chart paths across polar ice, through echoing canyons, and under aurora skies — unlocking access to unimaginable wonders. Small-group excursions unfold by Zodiac®, kayak, hike, or even helicopter — all under the guidance of our specialized team of Expedition Experts. From ship to shore, every element contributes to a deeper kind of discovery, where the unfamiliar becomes unforgettable.

PIONEERING A LEGACY OF DISCOVERY

2008 - 2010

CHARTING NEW PATHS

After debuting Silversea Expeditions in 2008, we redefined industry limits, introducing the first ever luxury voyages to the Arctic and Antarctica. By 2010, our reach extended deeper into these polar realms, setting a new standard for discovery at the ends of the Earth.

2011 - 2013

EXPANDING HORIZONS

Our reach expanded as we pioneered new routes to other remote regions – from Northern Europe to West Africa and beyond. In 2013, we were the first to bring elite Expeditions to the Galápagos, combining unparalleled comfort and service with the expertise of local guides.

2014 - 2016

BLAZING BOLD TRAILS

In 2014, we expanded our Expedition fleet, unlocking even more frontiers and pushing the boundaries of possibility across continents. These years marked bold firsts: from Cuba's white-sand shores and the Indian Ocean's hidden isles to the Sea of Okhotsk and New Zealand.

2017 - 2019

ICEBOUND AMBITIONS

The transformation of *Silver Cloud*[®] into an ice class ship marked a new major milestone, uniting refined comfort with polar capability. We further cemented our place at the forefront of Expedition travel by 2019, when we became one of the few to conquer the Northeast Passage.

2020 - 2022

A NEW ERA OF EXPEDITION

Momentum surged with the 2020 debut of *Silver Origin*[®], purpose-built to prioritize efficiency and minimize impact in the Galápagos. In 2021, we introduced our Antarctica Fly CruiseSM program, and by 2022, *Silver Wind*[®] and *Silver Endeavour*[®] joined our fleet, expanding access to new destinations.

2023 - 2025

INTO THE UNKNOWN

From the Amazon to the Red Sea, our Expeditions unlocked new regions and rare experiences. In Antarctica, we set our sights on islands untouched by humanity, scouting more landing zones, refining maps, and deepening a legacy of exploration at the planet's edge.

2026

A GROUNDBREAKING MILESTONE

Silversea once again makes history with the development of The Cormorant at 55 SouthSM, The Southernmost Hotel on EarthSM. Slated to open in 2026, this landmark 150-room hotel in Puerto Williams, Chile, transforms our Antarctic Fly Cruise Expeditions into something far more seamless — yet no less profound. Adventure remains at the heart, but comfort now meets you at the threshold.

RARE ACCESS, REFINED JOURNEYS

From the fjords of Northern Europe to the atolls of the South Pacific, Silversea Expeditions follow a living map of discovery. Decades of fieldwork and regional partnerships inform routes that evolve by itinerary, adapting to meet the world at its most vivid. This gives us more time to spend in iconic destinations, creating space for deeper immersion into nature, culture, and heritage. Every unforgettable journey is made possible through collaboration with local communities and an Expedition fleet built to navigate the planet's most elusive corners with unrivaled access.

WIDER HORIZONS, CLOSER CONNECTIONS

Roam the edges of the Earth on journeys that reveal otherworldly landscapes, rare wildlife, and remote communities. Our Expedition excursions are immersive by design with small-group activities carefully timed and impeccably planned to maximize every moment of discovery. With more guides and Zodiacs per guest than any other cruise line, landings are seamless and explorations are richer. Each experience is made possible by thorough scouting and long-standing relationships with local organizations — granting you privileged access to places few ever reach.

EXPLORATION, ELEVATED

REMARKABLE WILDLIFE

In the world's most remote environments, wildlife roam freely and our Expeditions follow their lead. Hike among penguins, kayak past dolphins, snorkel alongside sea turtles, and gaze up at endemic birds. Expert insight and tailored itineraries enable you to encounter rare wildlife in their natural habitats.

NATURAL WONDERS

Behold landscapes and ecosystems declared sacred by nature herself. Our Expeditions invite you to experience elemental wonders up close. Trace the edges of Ilulissat Icefjord or ride the tides of Horizontal Falls. Unlock the earth's best kept secrets and discover the meaning behind the majesty of it all.

REMOTE CULTURES

Silversea introduces you to communities rarely visited by outsiders. Learn about the Mud Men of Papua New Guinea, witness a Baining fire dance in Vanuatu, and discover the Inuit throat singing traditions of the Arctic. Local ties open doors to authentic exchanges, turning observation into human connection.

WORLD'S RAREST SITES

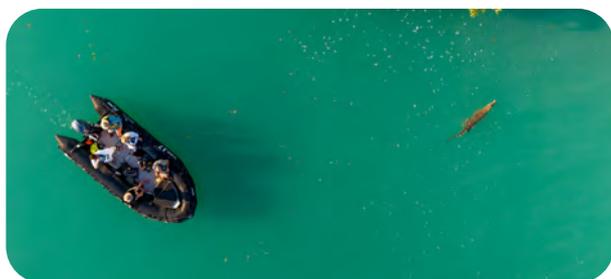

Scattered across the globe are a handful of cultural landmarks and UNESCO World Heritage Sites so remote, so revered, and so rare they challenge the limits of exploration. From Easter Island's Moai statues to the Kimberley's Gwion Gwion Rock Art, each preserved site beckons you to unearth a hidden legacy.

YOUR DEDICATED DISCOVERY TEAM

Every Silversea Expedition is enriched by a handpicked team of specialists whose expertise is matched only by their passion for discovery. We call them Expedition Experts — gifted storytellers, cultural ambassadors, and trusted companions. With elite credentials, deep regional insight, and personalized attention, they guide you with care, empower you with knowledge, and ensure your safety every step of the way. Venture into the unknown with the comfort of knowing you're in capable hands.

EXPEDITION EXPERIENCES

ZODIAC CRUISES

All our Expedition Experts are certified Zodiac drivers, whose knowledge runs as deep as the seas they navigate. Through remote waterways and hidden inlets, they bring you face-to-face with wild wonders, always adjusting to nature's rhythms — and always prioritizing your safety.

KAYAK ADVENTURES

The magic happens at water level — gliding between icebergs, weaving through mangrove tunnels, or drifting through crystal-clear waters as sea lions play within arm's reach. Paddle alongside kayak guides trained to read the water, the stories it holds, and the landscapes surrounding it.

GLASS BOTTOM BOAT

Beneath the sea's surface, a hidden world unfolds, and Silversea Expedition Experts decode its mysteries in real time. Aboard boats with transparent viewing panels, naturalists and marine biologists illuminate ecosystems below, revealing the delicate interplay between aquatic life and their habitats.

EXPERT-LED HIKES

Venture beyond the horizon and uncover stories only the land can tell. Each carefully paced hike becomes a dialogue with nature as naturalists, historians, and botanists interpret the living world around you, shedding light on everything from flora and fauna to geology and cultural sites.

SNORKELING EXCURSIONS

Snorkel coral kingdoms and crystalline coves under the supervision of in-water guides. Every excursion begins with a thorough briefing before unfolding into a guided exploration where vibrant species emerge, and their behaviors are identified, explained, and contextualized in real time

LECTURES & WORKSHOPS

Every Silversea Expedition comes into sharper focus through daily onboard lectures and workshops that spark meaningful conversation, interactive learning, and deeper understanding. These sessions are led by subject-matter experts who tailor each talk to your unique itinerary and interests.

POLAR PLUNGE

In the world's coldest waters, courage meets celebration. Plunge into polar seas with your Silversea Expedition Experts close by, alongside our medical team. As they cheer you on, cameras capture the joy. Applause fills the air. But it's the shared exhilaration that lingers longest.
